We've found ways to go Green in the kitchen with commonsense tips and Earth-friendly products. BY REX PERRY

Paper, Plastic, or Pretty?

When the grocery clerk asks “paper or plastic?”—you should reply “chic reusable shopping bag.” The waterproof Envirosax holds the equivalent of two plastic shopping bags and rolls up into a pocket-size package. Find dozens of print styles, including the Retro Graphic Bag 3 (\$8.50), at www.ecosumo.com, an online Green marketplace. This Baltimore-based Web site is one of our favorites for products combining function, style, and eco-responsibility.
